

RIVERLOVERS PRESENTS

The film:

This beautifully photographed film documents the adventures of Christopher Swain as he swims the entire length of the Hudson River. Along the journey Chris pauses to speak with local environmental heroes about the history of the Hudson and its environmental battles. He shows how ordinary citizens can and do make a difference through the choices they make that affect the environment, and by joining together around a common cause

The film will be followed by a discussion
Everyone is welcome!
